Conference:

Vancouver, British Columbia, Canada
December 9-12, 2002

Workshops:
Whistler Ski Resort
December 12-14, 2002

INVITED SPEAKERS

Hugh Durrant-Whyte: Information Flow in Sensor Networks
Paul Glimcher: Decisions, Uncertainty and the Brain:
Neuroeconomics
Deborah Gordon: Ants at Work
David Heeger: Neural Correlates of Perception and Attention
Andrew W. Moore: Statistical Data Mining
Pietro Perona: Learning Visual Categories

TUTORIALS

Martin Cooke: Computational Auditory Scene Analysis in
Listeners and Machines
Richard M. Karp: Mathematical, Statistical and Algorithmic
Challenges from Genomics and Molecular Biology
Michael Kearns: Computational Game Theory
Andrew McCallum: Information Extraction from
the World Wide Web
Sebastian Seung: Neural Integrators
Yair Weiss, Jianbo Shi & Serge Belongie: Eigenvector
Methods for Clustering and Image Segmentation

ORGANIZING COMMITTEE

General Chair: Sue Becker
Program Chair: Sebastian Thrun
Publications Chair: Klaus Obermayer
Tutorial Chair: Lawrence Saul
Workshops Co-chairs: Barak Pearlmutter & Robert Jacobs
Demonstrations Co-chairs: Shihab Shamma & Shih-Chii Liu
