

NeurIPS Announces Support for Newly Developing Scientific Community Gathering

July 16, 2025 — The 39th annual conference on Neural Information Processing Systems (NeurIPS), a premier conference in artificial intelligence (AI) and machine learning (ML), today announced they are supporting the organization of independent NeurIPS endorsed event in Copenhagen called EurIPS.

Supporting EurIPS helps NeurIPS to further its larger goal of supporting open and accessible communication in the field of artificial intelligence.

Held at the same time as NeurIPS, papers accepted at NeurIPS will have the opportunity to additionally present at this event should they choose to. Additionally, NeurIPS will be providing support to this new event by helping to facilitate the collection of conference fees. You can find out more about EurIPS at eurips.cc.

About the Conference on Neural Information Processing Systems (NeurIPS)

The conference is organized by the Neural Information Processing Systems Foundation, a non-profit corporation whose purpose is to foster insights into solving difficult problems by bringing together researchers from biological, psychological, technological, mathematical and theoretical areas of science and engineering. For more information, please visit the [NeurIPS website](#) and monitor the [NeurIPS blog](#) for event updates.
